

Floor Mounted Cap Sorter With Blower

New Cap Delivery System for Fogg's Z-24

Holland, MI, February 4, 2021 – Fogg Filler is continually focused on improving technology that better serves our customers and the environment. Fogg has taken their robust and reliable Z-24 cap sorter and created a floor mounted cap delivery system for easy loading and change over.

In the past, Fogg's Z-24 cap sorters have been mounted above the reach of an operator (shown top left). This then requires the operator to climb a ladder to fill the hopper with caps, or purchase a cap elevator. In smaller plants with low ceilings, or any plant with slippery or uneven floors, these are not ideal options. Fogg has created a floor mounted cap delivery system that virtually eliminates these issues.

The new sorter is mounted to the floor and air conveys the sorted caps into the capper. This unit is smaller than a bulk cap elevator, saving floorspace. Additionally, the blower is controlled by the HMI and is easily adjusted for a variety of caps.

This new unit (shown bottom left) can be paired with any machine that uses a Fogg 24" cap sorter (E-24 or Z-24). If you already have a Z-24 but would like to switch to the floor mounted delivery system, Fogg is happy to retrofit this unit using your existing sorter.

Fogg continues to improve technology and provide the highest level of reliability for your production lines. Please consult a Fogg sales representative to discuss your particular application or for our full line of filling and capping machines and accessories please contact our sales team at 616-786-FOGG or www.foggfiller.com

About Fogg

Fogg is a market leader in the design and manufacture of rotary liquid filling systems including rinsers, sanitizers, fillers, cappers, and cap sorters. Fogg offers tailored solutions to meet the specific needs of companies in the dairy, juice, water, spirits, pharmaceutical, chemical, and other consumer packaged goods markets. Dedicated to superior craftsmanship and service worldwide, Fogg continually finds ways to enhance filling performance in all

situations, including extended shelf life applications and assuring optimum production rates. Fogg is a product brand of ProMach, a global leader in packaging line solutions. As part of the ProMach Filling business line, Fogg helps our packaging customers protect their reputation and grow the trust of their consumers. ProMach is performance, and the proof is in every package. Learn more about Fogg at www.FoggFiller.com and more about ProMach at www.ProMachBuilt.com.

About ProMach

ProMach is a family of best-in-class packaging solution brands serving manufacturers of all sizes and geographies in the food, beverage, pharmaceutical, personal care, and household and industrial goods industries. ProMach brands operate across the entire packaging spectrum: filling, bottling and capping, decorative labeling, flexibles and trays, pharma, handling and sterilizing, labeling and coding, and robotics end of line. ProMach also provides systems and integration including turnkey solutions, design/build, engineering services, and productivity software to optimize packaging line design and deliver maximum uptime.

ProMach designs, manufactures, integrates, and supports the most sophisticated and advanced packaging solutions in the global marketplace. Its diverse customer base, from Fortune 500 companies to smaller, privately-held businesses worldwide, depends on reliable, flexible, technologically advanced equipment and integrated solutions. ProMach is headquartered near Cincinnati, Ohio, with manufacturing facilities and offices throughout North America, Europe, South America, and Asia.
