

## Metering Pumps For Fogg Sanitizing Systems

*Automated Adjustability Solution for Chemical Injection Metering*

**Holland, MI, May 27, 2021** – Fogg Filler is continually focused on improving technology that better serves our customers and the environment. Fogg has started adding automatically adjustable metering pumps for dosing in chemical concentrate as opposed to using chemical injection pumps that were adjusted by hand.

This chemical metering pump is motor driven using a variable frequency drive for precise volumetric flow. On a Fogg system, the metering pump is used for injecting a precise amount of chemical concentrate into the blending tank for Fogg Sanitizing Systems.

Fogg's new metering pump system reduces downtime and operator error. The operator enters the titration result into the HMI, the program compares the titration results against the required concentration, and then automatically adjusts the chemical concentration in the blending tank by adding the appropriate volume of water or concentrate.

Another benefit to this automated pump is you can change the required concentration when a new chemical is desired. There is no need to reach out to the OEM to change or buy new equipment.

Also, the accuracy of the mixture controlled by the metering pump allows for reduced chemical waste, saving time and money.

Fogg continues to improve technology and provide the highest level of reliability for your production lines. Please consult a Fogg sales representative to discuss your particular application or for our full line of filling and capping machines and accessories please contact our sales team at 616-786-FOGG or [www.foggfiller.com](http://www.foggfiller.com)

### **About Fogg**

Fogg is a market leader in the design and manufacture of rotary liquid filling systems including rinsers, sanitizers, fillers, cappers, and cap sorters. Fogg offers tailored solutions to meet the specific needs of companies in the dairy, juice, water, spirits, pharmaceutical, chemical, and other consumer packaged goods markets. Dedicated to superior craftsmanship

and service worldwide, Fogg continually finds ways to enhance filling performance in all situations, including extended shelf-life applications and assuring optimum production rates. Fogg is a product brand of ProMach, a global leader in packaging line solutions. As part of the ProMach Filling business line, Fogg helps our packaging customers protect their reputation and grow the trust of their consumers. ProMach is performance, and the proof is in every package. Learn more about Fogg at [www.FoggFiller.com](http://www.FoggFiller.com) and more about ProMach at [www.ProMachBuilt.com](http://www.ProMachBuilt.com).

### **About ProMach**

ProMach is a family of best-in-class packaging solution brands serving manufacturers of all sizes and geographies in the food, beverage, pharmaceutical, personal care, and household and industrial goods industries. ProMach brands operate across the entire packaging spectrum: filling, bottling and capping, decorative labeling, flexibles and trays, pharma, handling and sterilizing, labeling and coding, and robotics end of line. ProMach also provides systems and integration including turnkey solutions, design/build, engineering services, and productivity software to optimize packaging line design and deliver maximum uptime.

ProMach designs, manufactures, integrates, and supports the most sophisticated and advanced packaging solutions in the global marketplace. Its diverse customer base, from Fortune 500 companies to smaller, privately-held businesses worldwide, depends on reliable, flexible, technologically advanced equipment and integrated solutions. ProMach is headquartered near Cincinnati, Ohio, with manufacturing facilities and offices throughout North America, Europe, South America, and Asia.
