

Fogg Cap Sorting Updates

Fogg has made multiple updates to their current cap sorting solutions

Holland, MI, November 16, 2021 – Fogg Filler is continually focused on improving technology that better serves our customers and the environment. Fogg has made multiple upgrades to cap sorting equipment including VSE cap sorters with new lowered load heights, a floor mounted pocket sorter that is in development, and a tote dumper that now accommodates taller totes.

Fogg has lowered the load height on VSE cap sorters to be more ergonomic and user friendly. These load heights now range from 42-47 inches, making them approximately 13 inches shorter than the older models. These are much easier to load caps into. Operators no longer need a platform or ladders to load and re-load their sorters. This lowered feature is also retrofittable for all Fogg VSE sorters already running in production.

Fogg recently released the FMZ-24 cap sorter creating a floor mounted option for sorting caps with Fogg's Z-24 sorter. The Fogg engineering team is currently working to apply this floor mounted feature to other cap sorters as well. Fogg is currently developing a floor mounted FPS-48 pocket sorter for sorting both ROPP caps and T-corks.

Fogg's new option for tote dumpers accommodates a wider variety of tote sizes. The tote dumper's height has been extended to accommodate taller totes and comes with removeable adapters for raising the shorter totes so that they may be run on the same machine. You can now run both sizes with minimal changeover.

Fogg continues to improve technology and provide the highest level of reliability for your production lines. Please consult a Fogg sales representative to discuss your particular application or for our full line of filling and capping machines and accessories please contact our sales team at 616-786-FOGG or www.foggfiller.com

About Fogg

Fogg is a market leader in the design and manufacture of rotary liquid filling systems including rinsers, sanitizers, fillers, cappers, and cap sorters. Fogg offers tailored solutions to meet the specific needs of companies in the dairy, juice, water, spirits, pharmaceutical, chemical, and other consumer packaged goods markets. Dedicated to superior craftsmanship and service worldwide, Fogg continually finds ways to enhance filling performance in all situations, including extended shelf-life applications and assuring optimum production rates. Fogg is a product brand of ProMach, a global leader in packaging line solutions. As part of the ProMach Filling business line, Fogg helps our packaging customers protect their reputation and grow the trust of their consumers. ProMach is performance, and the proof is in every package. Learn more about Fogg at www.FoggFiller.com and more about ProMach at www.ProMachBuilt.com.

About ProMach

ProMach is a family of best-in-class packaging solution brands serving manufacturers of all sizes and geographies in the food, beverage, pharmaceutical, personal care, and household and industrial goods industries. ProMach brands operate across the entire packaging spectrum: filling, bottling and capping, decorative labeling, flexibles and trays, pharma, handling and sterilizing, labeling and coding, and robotics end of line. ProMach also provides systems and integration including turnkey solutions, design/build, engineering services, and productivity software to optimize packaging line design and deliver maximum uptime.

ProMach designs, manufactures, integrates, and supports the most sophisticated and advanced packaging solutions in the global marketplace. Its diverse customer base, from Fortune 500 companies to smaller, privately-held businesses worldwide, depends on reliable, flexible, technologically advanced equipment and integrated solutions. ProMach is headquartered near Cincinnati, Ohio, with manufacturing facilities and offices throughout North America, Europe, South America, and Asia.
