

UNIVERSAL BOTTLE HANDLING

Available for filler models F6.2, F8.1, F9, & F12

Simply take out the keys, expand or contract the guides and starwheels, and replace with the correct keys for the new bottle

- Significantly reduced changeover time between bottles
- Color-coded keys paired with each bottle for clear and simple changeover
- Less storage needed with smaller and less parts
- Expandable guides for bottle variation including shapes, sizes, and materials

Possible Bottle Matrix

including PET and glass

**Requires an engineering consultation on your specific application*
